

Ozone Generator

1,500 mg/hr ozone generator

Inexpensive high output ozone generator. Great for laboratory or research applications.

Features

- ozone concentrations b/w 0.5-1% by wt.
- ozone output fully adjustable
- small & compact for tight spaces
- 3 air cooling fans for reducing temperature on corona tube
- low power consumption (less than 50 W)

Product ID: **HG-1500**
 In Stock: **Yes**
 Price: **\$395**

Model	Output	Price
HG-1500 (220V/50Hz)	1,500 mg/hr	\$395.00

Specifications

Max. Ozone Output:	1,500 mg/h on oxygen, 750 mg/hr on dry air - fully adjustable
Power Source:	110V/60Hz (220V/50Hz available)
Ozone Generating Method:	Corona Discharge
Feed Gas	Dry air or oxygen - must be supplied externally
Power Consumption	Less than 50W
Case:	Aluminium + Plastic
Materials on Ozone Path:	Glass, Teflon, Silicone Rubber, Aluminium oxide, EVA+PP
Connections	1/4-in barb
Dimensions:	10-in x 7-in x 5.5-in (LxWxH) 250-mm x 180-mm x 140-mm
Weight	7-lb (3.2 kg)
