

Ozone Checker

Inexpensive Ozone Checker

The OG-3 uses a precision quartz UV lamp ozone generator. Its output is adjusted in our laboratory by comparison with a NIST traceable standard. Not recommended for calibration purposes.

Features

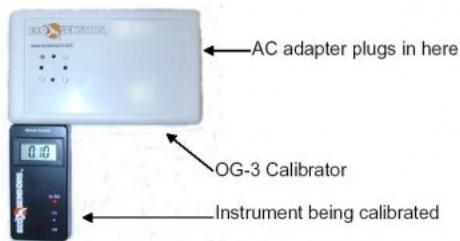

- generates a consistent 0.1 PPM ozone concentration
- inexpensive ozone verification source
- easily adapts to the A-21ZX, EZ-1X, C-30ZX & OS-1X
- AC adapter included
- NIST traceable before shipment

Product ID: **OG-3**
In Stock: **Yes**
Price: **\$465**

Specifications

Ozone Source	precision quartz UV lamp
Output Ozone Concentration	0.1 ppm (standard) or 1 ppm (upon request)
Accuracy	+/- 10%
Warm-up time	30 minutes
Temperature of use	Indoor room temperature (50-80 deg F)
Warranty	One year
Power requirement	12 VDC at 300 mA
Size	36 x 95 x 160 mm (1.41 x 3.75 x 6.30 in)
Weight	255 grams (9 oz)

OG-3 Ozone Verification

The OG-3 can easily check all the sensors in the Ecosensors lines. No other complicated equipment required!
